Addressing the Unique Needs in Pediatric Brain Injury

March 2, 2012

Cardinal Hill Rehabilitation Hospital
2050 Versailles Road
Lexington, Kentucky 40504

7410 New La Grange Road, Suite 100
Louisville, Kentucky 40222
1-800-592-1117 • www.biak.us

Our Mission

The mission of the Brain Injury Alliance of Kentucky (BIAK) is to support and advocate for individuals affected by brain injuries and to foster prevention through advocacy, education research and service.

Summit Location & Directions

Cardinal Hill Rehabilitation Hospital
2050 Versailles Road
Lexington, Kentucky 40504

Travel directions to Cardinal Hill Rehabilitation Hospital

From I-75/ I-64: Take exit 115 (Newtown Pike) south towards Lexington. Go approximately 2 miles; turn right onto New Circle Road (Kentucky Highway 4). Continue 5 miles to Exit 5-A, Versailles Road, East.

Cardinal Hill is at the 4th light (corner of Mason Headley and Versailles roads). Turn right onto Mason Headley, then left into the first entrance.

We Invite You

The Brain Injury Alliance of Kentucky (BIAK) invites professionals, brain injury survivors, family members and others interested in brain injury to learn about the impact of mild brain injury on the pediatric patient and family, and current best practices in differential diagnosis, management, and achievement of quality of life. Leading clinicians from the region will share their expertise with the audience.

Summit Objectives

At the end of the Summit, participants wil be able to:

- Recognize the effects of injury to the developing, pediatric brain and how it differs from the adult brain
- Discuss causes, effects and limits of neuroplasticity in pediatric brain injuries
- Distinguish between eyesight and vision and the role of vision rehabilitation in pediatric patients
- Discuss the effect pediatric TBI has on families in the Acute, Rehabilitative and Long-term phases of pediatric brain injury
- Describe the common sequelae of pediatric TBI
- Identify state and federal guidelines for transition from school to work and available resources
- Discuss the evaluation and follow up of a child with abusive head trauma
