<sup>\*\*\*</sup>Other fee's may apply within program.

## Mission

Our mission is to provide benchmark services to allow children to develop to their fullest potential. By providing quality services to children at a young age, this program will put children on the path to reaching their full potential.

# What We Do

Create a learning environment that is developmentally appropriate and that works to meet your child's needs.

Active learning allows individualization of activities and routines.

Respect and partner with families to build a strong center to home connection.

Encourage each child's social & emotional development by promoting self-help and independence.

# What We Provide Our Commitment

Creative Beginnings provides developmentally appropriate activities using an emergent curriculum focused on the child's interest and needs. Developmental screenings are completed annually by teachers and other professionals.

We provide a safe, nurturing environment for your child.

All staff are CPR and First Aid certified and have comprehensive background checks annually.

All classrooms are bright, clean, and inviting. Children play outside daily on our enclosed playground.

Our facility is secured with keypad entry on all access doors

We are committed to providing an excellent early childhood experience for your child.

We treat children with respect; accept that each child is an individual; encourage exploration; use appropriate limit setting; help children learn to interact appropriately with their peers; understand and respect different parenting styles; support and reinforce each child's growing independence, and provide a positive learning experience based upon child's level of development.

"We must teach our children to dream with their eyes open"

Harry Edwards
